March 2013

Dear Referring Physician:

It is with mixed emotions that I am making this announcement as I have feelings of both sadness and excitement. Effective March 19, 2014 I will be retiring from the Certified Hand Center of Rockford concluding my 38 year profession as an Occupational Therapist and 22 years as a Certified Hand Therapist.

While my passion for occupational therapy still lives, the next chapter of my life is calling on me as I look forward to spending more time with family and friends. Though I am retiring I will be offering my services to the Certified Hand Center on occasion and will look forward to our encounters during these times. I will miss our associate relationship, however, I want to assure you that my friend and colleague, Leah Crull, OTR/L, CHT will continue to offer the same great certified hand and occupational services to your patients.

Thanks to each of you for the privilege of caring for your patients. This has been an amazing career and I will forever be grateful for having been a part of it.

Sincerely,

Karen Weber
